Letter—from J. M. Parker, Esq., Superintending Engineer, IV Circle.
To—the Chief Engineer for Irrigation.
Dated—Coimbatore, the 20th August 1914.
No.—250-I.

I have the honour to state that tank No. 209 in the list of works in charge of Public Works Department, North Arcot district, is named as Tavani tank. The Tavani sitteri adjoins it and is separated by a cross bund which is headed. The F.T.L. of both the tanks being the same, I propose to throw the two tanks into one and have sanctioned an estimate under T.R.S. repairs. I therefore request you will be good enough to approve of the proposal and to correct the name of the source of irrigation as "No. 209 Tavani large and small tanks."

II
